DETAILED ACTION

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The claims in this application have been allowed because the prior art of record fails to disclose either singly or in combination the claimed device of a medical needle comprising a plurality of maximal and minimal points wherein the maximal point closest to the needle tip is gradually and continuously increased in accordance with the distance from the tip.

The closest prior art of record is U.S Patent 7,361,182 in view of U.S Patent 6,673,058 to Snow and U.S Patent 7,445,616 to Petrakis, however these references do not disclose the device as claimed or described above.

Regarding claim 1 and 32, the closest prior art fails to teach among all the limitations or render obvious the specifics of the medical needle tip and the maximal point closest to the tip is gradually and continuously increased.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
